## Accelerating the Search: Addressing Critical Issues in AIDS Vaccine Research

A Collaborative Satellite Symposium at the AIDS Vaccine 2009 Conference

**Monday, 19 October 2009**  
**08:30 – 13:30**  
**Marriott Rive Gauche Hotel, Jardin de Luxembourg B&C, Paris**

**Programme will include:**

**AIDS Vaccine Research and Development Updates** – This introductory session will look at where are we in the search for an AIDS vaccine and how it fits in the wider world of prevention research and the global response to HIV.

**Integrating and Sustaining Vaccine Research and Development** – This panel discussion will consider how we can ensure the continued engagement of policy makers, communities and researchers in AIDS vaccine R&D, including in the more upstream work.

**Applying Behavioral and Social Science in AIDS Vaccine Research** – A facilitated discussion with leading researchers will identify gaps in behavioral and social science in AIDS vaccine research and explore how to fill them.

**Networking Lunch** – Will include short updates on the African AIDS Vaccine Program (AAVP) and the AIDS Vaccine Asian Network (AVAN).
