 CUREiculum

Today we are closer than ever to developing a cure that will end the HIV epidemic. In this webinar, Jeff Taylor from the Care Collaboratory CAB at UNC will discuss the basics needed to understand cure research and clinical trials, utilizing the CUREiculum, AVAC's Cure education tool.

WEBINAR OBJECTIVES

- Define terms needed to understand cure research
- Explore some of the major challenges to developing a cure
- Understand the current state of cure research

Tuesday, June 13, 2017
