

Advocacy in the middle of the storm

*2014 European PxROAR meeting
June 13th 2014
Paris*

Overview

- Planeta Salud
- Our advocacy strategy on NPT
- What we are doing
- Conclusions

Planeta Salud (Planet Health)

- Mission:

“improve the life expectancy and quality of life of people living with or at risk of acquiring HIV/Aids, tuberculosis or malaria world-wide”.

- Objective:

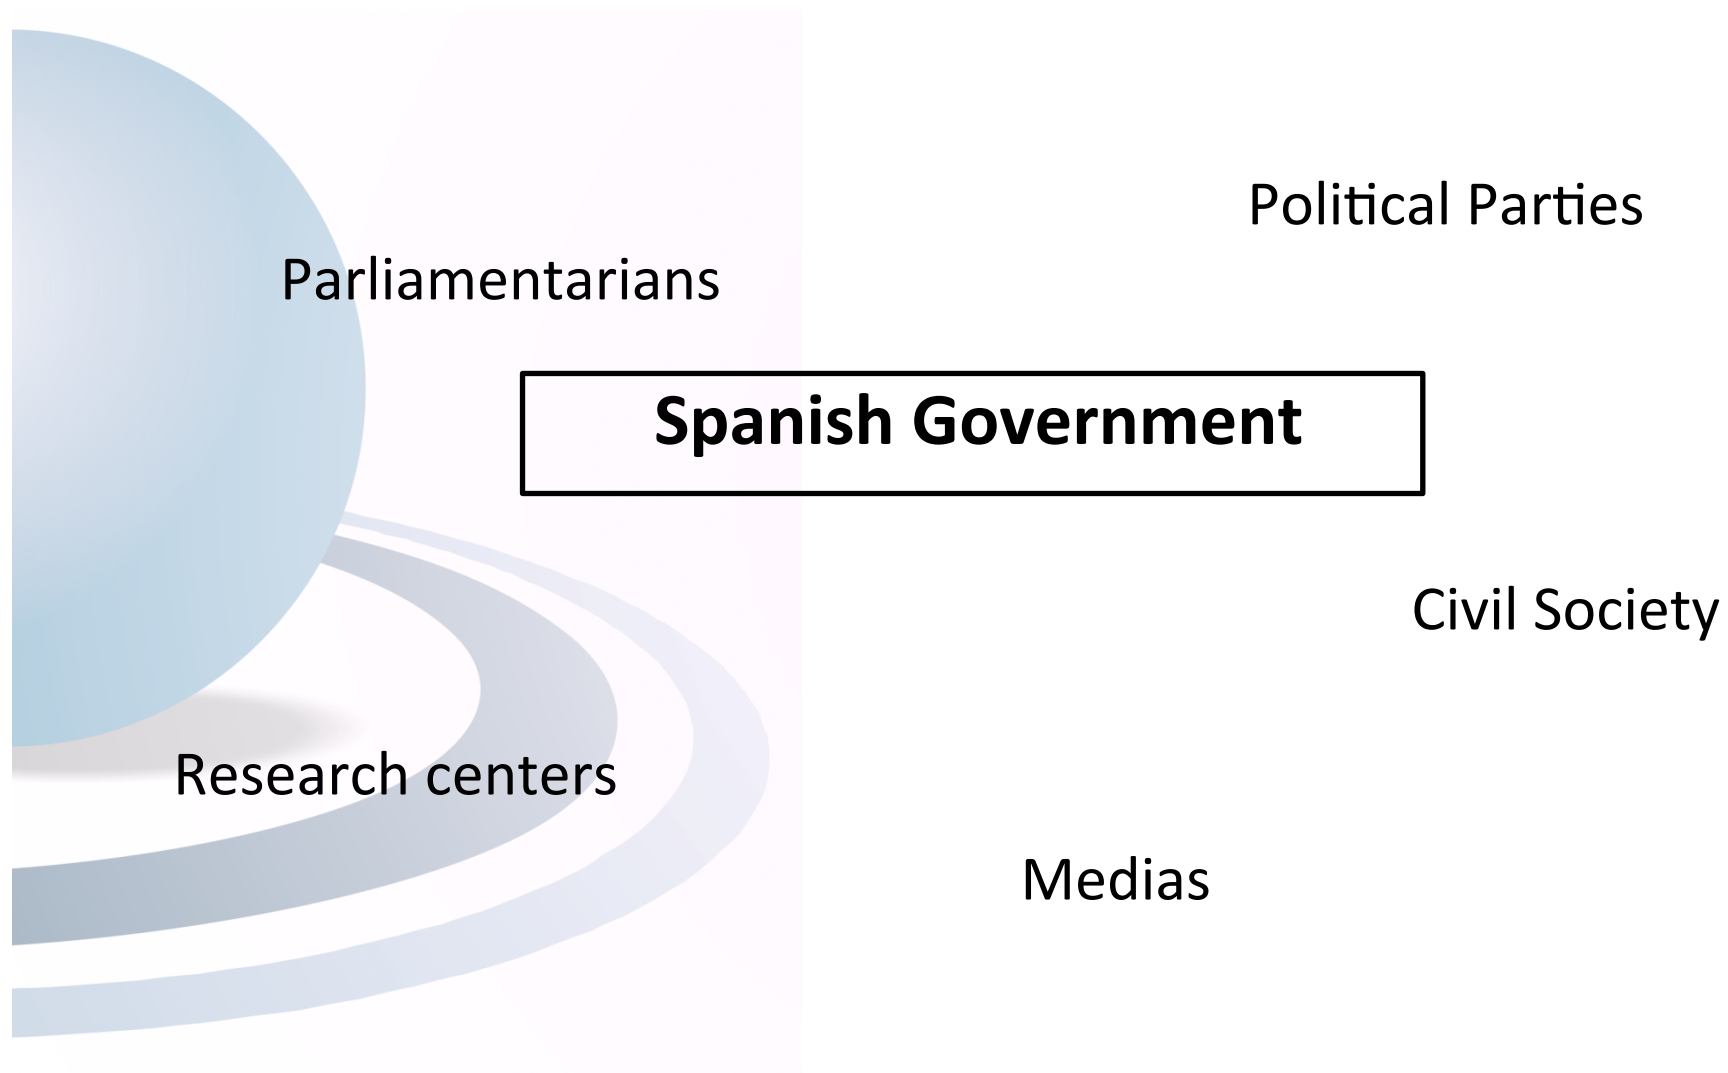

- Spanish Government and other audiences recognize R&D for Global Health as an essential part of Cooperation policies and support it.

Core Messages

- Planeta Salud
 - R&D in Health for Development
 - Need of new health tools
 - Comprehensive approach of HIV/Aids, TB, Malaria
 - Community Participation in Clinical Trials

Advocacy Strategy

Advocacy Strategy

- To build a wide support to NPT
- To include R&D for GH (and NPT) into Spanish Development Policies
- To reach financial support to NPT
 - Between 2007 – 2011, 12 millions Euros to IAVI and IPM

What we are doing

- Maintain and increase the Political support
 - Meetings with Spanish Government
 - Expressions of support from the Spanish Parliament: Two Non Binding Proposal (2013) + Institutional Declaration of Support to AIDS Vaccine R&D
- Increase pressure on the Spanish Government to resume financial support to R&D for Global Health
 - Written commitment to resume financial support as soon as there is a budget (2015?)
- Raising awareness amongst Civil Society

Conclusions

- Is money everything?
- Support to R&D for GH is maintained
- Adapt your strategy and efforts, be strong

Thank you!
