Presentation and Panel
In this session, we will: 1) present key considerations when measuring impact and defining effective use in the context of pre-exposure prophylaxis (PrEP); 2) explore approaches programs have developed to measure continued use taking into account variations in risk; and 3) discuss promising practices that support and improve effective PrEP use.

Presenters
Jessica Rodrigues, AVAC
Jason Reed, Jhpiego
Catherine Koss & James Ayieko, UCSF, SEARCH Study Team
Nittaya Phanuphak, IHRI
Albert Liu, SFPHD

Panelists
Josephine Aseme, AVAC Fellow
Rachel Baggaley, WHO
Sarit Golub, Hunter College
