ROLLING OUT PrEP AND HIVST IN TANZANIA: OPPORTUNITIES AND CHALLENGES

OBJECTIVES

◆ To document young women’s opinions and acceptability of PrEP and HIV self-testing in Tanzania to inform policy development and amendment
◆ To advocate and influence policy development towards implementation of HIVST and rollout of PrEP among young women (15-24 years) in Tanzania
◆ Foster an informed and enabling environment for rollout of self-testing and PrEP

KEY ACCOMPLISHMENTS

◆ Launch of PrEP and HIVST demonstration project in April 2018 Tanzania
◆ Amendment of the current HAPC Act.2008 (Age of consent & Self-test)
◆ Country’s commitment to move PrEP from implementation science to full-scale rollout
◆ Growing network of young women/advocates
